

HYWAX is a member of the EAPA - European Asphalt Pavement Association

Hybit® is Hywax's all-in-one additive for asphalt applications; it reduces processing temperature and abrasion of the asphalt layer while increasing the lifespan of the pavements. Some of the reasons why our customers love it:

- Good workability even during poor weather conditions without any additional compaction/without increasing mixing temperatures
- More effective compaction down to the critical paving temperature range
- Extended construction season
- Easier manual application

To learn more visit our website and get in touch with an Hybit® specialist. We'll be happy to help you find the best product for your specific needs.
